

# **PATIENTS REFERENCE GROUP'S** **(PRG) PROFILE – 2013/14**

## **Ashburton Park Medical Practice**

### **1. Validate that the patient group is representative**

#### **1.1. A description of the population of the members of the PPG**

The profile of the Ashburton Park Medical Practice patient participation group is neither reflective nor representative of its practice population. The practice has found that the current membership reflects the types of patients who have a certain level of confidence, free time and have the flexibility to attend the meetings.

#### **Gender**

<b>Male</b>	<b>Female</b>
3	7

#### **Age Group**

<b>Age Group (years)</b>	<b>No of Participants</b>
10-19	
25-29	1
30-39	-
40-49	-
50-59	-
60-69	5
70+	4

In trying to recruit members for the PPG the practice found the biggest interest came from the female patients between the ages of 50 to 69 years and the were mainly female patients who seemed to have more time and courage to get involved in the practice life.

The practice has considered evening meetings to attract patients who are working, are in full time education or have children of school age. Unfortunately, such patients have not come forward or were able to offer their time.

#### **Ethnicity:**

<b>Ethnicity</b>	<b>No of Participants</b>
White British	3
Other white	3
African	2
Other Asian group	2

## **Access to internet**

All participants have access to internet

### **1.2 A description of what steps the Practice has taken to ensure that the PPG is representative of its registered patients and where a category of patients is not represented then what steps have been taken by the Practice in an attempt to engage with those patients:**

The following steps were undertaken with an aim of increasing the membership to the group and making it more diverse:

- Posters were put at all the prominent places to persuade the patients to joint the group (See Annex 1 & 2)
- New patients were also invited to joint when they were registering with the practice.
- PPG registration forms were distributed to existing and newly registered patients. (See annexe 3).
- **“Help us serve to you better”** campaign was launched using poster (see Image 1 for example of poster) and registration forms that encouraged patients who were waiting on appointments to join.
- The registration forms were available at the reception for all the patients to join.
- The reception team were tasked with promoting the group to patients.
- Our reception staff and team of clinicians have actively encouraged patients to join the PPG.

## **3. Survey**

### **3.1 A description to be entered in around how the Practice and the PPG determined and reached an agreement on the issues which had propriety within the Local Practice survey:**

The practice was very keen on engaging patients to help deliver and design services around the needs of its patients.

The PPG was given the opportunity to comment about any aspect of the service or facilities of the practice and suggest issues that they wanted the survey to address.

Based on that feedback as well as patients comments from the ‘comments and suggestion book’ that is available in the reception area, survey questions were formulated using the templates and guidelines of:

- The GP Patient Survey
- NHS In-Patient Questionnaire
- The National Survey of NHS Patients

Created survey was then presented to the PPG group for final review and approval. (See Annexe 4)

## Help Us To Serve You Better

**Become part of our  
Patients’ Reference Group (PRG)**

**It’s simple to join**----Ask the receptionist and fill in a simple form to provide us with your contact details etc.

**It’s virtual** – mostly communication will be done via email, telephone or text.

**It has a voice**—Practice will listen and implements the suggestion of the PRG to improve services it offers for the patients’ e.g. appointments, access to premises etc.

Annexe 2 Help us to Serve you better (2<sup>nd</sup> Poster)

We would welcome you to share your experience of being a patient at Ashburton Park Medical Practice.

Some patients have been generous with their time and have identified the main problems that we might be able to go some way to solving.

If you would complete the attached questionnaire we shall be better able to address possible solutions to these issues. Your answers will be confidential. The statistics will be available after analysis and we will let you all know the outcome, by advertising it in the practice or other means.

**Practice Participation Group**

We are pleased to invite you to join our practice patient reference group.

**Aim and Objectives:** The aim of the Patient Reference Group (PRG) is to proactively engage our registered patients to seek their views on what matters to them most regarding the healthcare services provide by our practice

**What is Patient Reference Group (PRG):** It is sub group of selected patients which should represent the practice population as much as possible and help practice decide and prioritise changes and improvements in the services we offer through information we will gather from patients' surveys.

**How PRG will work:** A group of people will be selected by the practice as it should be representative of the practice population in regards to its demographics etc.

The group will be a virtual group and the communication will be done via emails.

**How can I participate:** If you are interested then please fill-in this form and return it to receptionist. You'll be informed by the practice as soon as the group is formed and if you are selected.

**The information you give on this form will remain Private and Confidential.**
